SEPARK, HICKS & CO., Engineers, Iron Founders and Machinists, RALEIGH N, C.,

Manufacturers of STATIONARY ENGINES, BOILERS, COTTON GINS, COTTON PRESSES, MILL, and MINE MACHINERY, SAW MILLS, MACHINERY in general and PLOWS

of the most improved paterns. STEAM ENGINES, BOILERS and all classes of Machinery repaired in a mechanical way with promptness.

Castings of all descriptions furnished to order at short notice. All the different kinds of Plows formerly made by Separk, Hicks & Co. are being manufactured, and are new offered at the lowest prices consistent with good material and workmanship.

Mr. J. H. SEPARK will remain with us in charge of the Foundry.

We will pay the nighest price for old castings and want immediately 100,000 pounds.

FERTILIZER.

FERTILIZER.

W HANN'S RAW BONE SUPER PHOSPHATE.

The unexampled success of this renowned manure during many years, has a reputation which few other fertilizers can claim. Its sales are very extensi in all parts of the country, especially in those parts of the South where cotton and corn are largely grown. So decided and positive have been its results on these important staples, that in many sections it is preferred to all other manures.

Whann's Raw Bone Super Phosphate

prompt and ctive in its effects. It starts the young plant vigorously, and by furnishin a steady supply of nutriment during the period of its growth, brings the crop to a healthy maturity in time to escape the ravages of early frosts.

We offer this well known fertilizer to our friends, confident that they will concur in the oldrion of the leading planters of the South, that for Cotton and Corn it is unequalled.

E H SOLUBLE

PHOSPHATE

Is said to be the best tertilizer ever used, and is the cheapest by \$5.00 per ton of any Standard Fertilizer sold in the State. Gentlemen who used it last season and have bought again this, WRITE US CONCERNING ITS EFFECT as follows:

WAKE COUNTY, N. C., December 21, 1873, WAKE COUNTY, St. O.

WAKE COUN Yours truly,

NEAR RALEIGH, N. C., December 13, 1873,

MESSUS, A. C. SANDERS & CO., Raieigh:
Gents,—The Star Phosphate bought of you last season acted exceedingly well on
my plantation, and I shall use it altogether next season.

Your truly,

WILLIS H. WHITAKUR.

Yourstruly, FRANKLIN OUNTY, N. C., December 22, 1873. Mgsa-s. A. C. SANDERS & CO., Raleigh:
diontiemen—I cheerfully recommend the Star Phosphate I bought of you last season
as a No. I Fertilizer. It think it equal to any I ever used.
Yours truly,
W. K. Davis.

BEAUFORT COUNTY, N. C., December 29, 1873.

Messas. A. C. Sanders & Co. Raleight:
Gentlemen—I take pleasure in recommending the Star Phosphate, bought of you last Spring, to all farmers as a No. 1 fertilizer. I co sider it equal to any I ever used.

Very truly yours,

W. A. BLOUNT.

THE GRAVES COTTON PLANTER.

Save your money, time and shor by using the GRAVES COT TON PLANTER.
It sows the seed without the usual trouble of subbing and with much more regularity and precision. It will sow from 1 to 7 bushels to the acre. It opens, sows a desvers at the same time and requires only one I hand. We refer to the well-known farmers below; the same time and requires only one I hand. We refer to the well-known farmers below; W. F. Holeman and T. F. Lee, Wake county. Gen. J. shua Barns. G. W. Barcioot, w. F. Green, Edgecombe county; N. W. Williams, B. D. Rice, and B. Iden & Kornegay, Wayne county.

A. C. SANDERS & CO., SOLE AGENTS, RALEIGH, N. C.

Subscribers finding this notice marked around will take notice that their subscription will expire within two weeks. They will please renew AT ONCE, as the CASH SYSTEM adopted by us will necessitate the dropping the names of all parties not renewing. We hope our subscribers will take due notice of this fact and govern themselves accordinly.

LOCAL MATTER.

E. C. WOODSON, City Editor.

SPECIAL CITY ITEMS.

can be regularly suppled morning or evening with PURE MILK at Ten Cents a quart, E. CONKLIN. Apply to apri-3t.

CALL at Pescud, Lee & Co's, Drug Store, and drink the Excelsior Spring Water, on draught, fresh from the Spring at Saratoga. The only natural Mineral Water on draught in the city.

CANDY FACTORY .- A full assorime t of Candles of every description manufactured daily, and offered to the trade at Northern prices. All orders will meet with prompt A. D. ROYSTER & BROS, Raieigh, N. C.

LOCAL BRIEFS-March went out yesterday with a

heavy blow and rain. As the season advances the base ball excitement increases.

Rev. Mr. Cole is conducting a revival at Person street M. E. Church. The State Council Friends of Tem-

perance will meet in Winston on the 19th inst. The Knights of Pythias are notified to meet at their hall to-night at 7½ o'clock, with their uniforms.

See special notice of E. Conklin, who is prepared to furnish a few more customers with pure milk at 10 cents a quart.

The Swiss Times chronicles a very respectable list of American singers who are winning fame before European audiences. The Anniversary of the introduction of Odd Fellowship into America

will be appropriately observed on the 27th inst., by that fraternity generally. One of the attractions of the Cen tennial celebration at Philadelphia-

"the Grand Army of the Republic." Let all southern men hasten to see these men. The revival at the Baptist Church

continues with increased interest.

Services are held twice a day and the prospect is good for a great awakening in the cause of religion. We are pleased to learn that Major John W. Dunham was resting very easy yesterday, and there is no cause

of apprehension from the severe operation of the opening of his wound. The President, Major Jos. A. Engelhard, makes an official call in another column of the second annual meeting of the North Carolina State

press, to be held in this city on the 12th of May. The registration in this city yesterday was as follows:

White Colored Eastern Ward, 15 13. Middle Ward, 15. Western Ward,

We invite especial attention to the notices in another column of Messrs. R. F. Jones & Co., wholesale and retail grocery dealers. They have on hand corn, meal, flour, peas, molasses, bacon and groceries of every character. Give them a call.

The city municipal canvass is opening and candidates are becoming as plentiful as peach blossoms in an orchard. The reformers have called for a Convention on the first of April while the "Ins" are quietly holding back to see how the new party "moves

The Buffalo Bill theatrical troupe, in which there are several "big injins," gave their last performance at Tucker Hall last evening. In dull times, when no other troupes are around their performance might be consider-A M M O N I A T E D ed as moderately passable.

We have received the third annual report of the Institution for the Deaf and Dumb at Belleville, Ont., of which our former fellow townsman. Prof. W. J. Palmer, is Principal. We are glad to note the fact that under his efficient administration the Institution is prospering.

That "an eternal fitness of things" exists is made manifest in almost all the ordinary transactions of each day. In the parade of the "Comanches" through our streets on Monday, one of the "noble red men" rode Gen. Gorman's banker, Shacknasty-Jim.

Through the courtesy of Captain W. H. Green, Master of Transportation of the North Carolina Road, a special train has been tendered the Press Association on the 14th of May for the purpose of making an excursion from this city to Haw river. It is expected that a number of other gentlemen will accompany the press gang upon this excursion.

Weikel, the Merchant Tailor, advertises elsewhere in to-day's paper the arrival of his large and attractive stock of Spring and Summer goods for gentlemen's wear. The reputa-tion of Weikel, as a cutter and fitter, is well known and comment is unnecessary. We have seen and examined his stock and are prepared to youch for his statement that it is one of the most attractive he has ever brought to town.

A member of the Kentucky Legislature, of good Confederate record, was recently charged with having deserted his party. Smarting under the charge, he sprang to his feet, and said: "Mr. Speaker, this is the first time that my fidelity to the Democratic party has been questioned. Sir, let me answer this base charge by saying, that four years of my life were spent on the field of blood and carnage to prove my Democracy." The effect was magical, the charge was withdrawn the proof submitted was sufficient to establish the gentleman's fidelity to his party.

DURHAM.-Durham, in Orange county, about forty miles west of this city, is very properly termed the magic city of the North Carolina Railroad. Within a few years it has increased its corporate limits more than ten fold; now ranks as one of the liveliest and most progressive towns in the State, and if it contin-ues at its present rate of progress a few years more will place it even with the largest towns, between Raleigh and Charlotte. We spent two days in this lively burg a short time since, and we must say that we were more than surprised to find so much thrift, enterprise and such a spirit of wilful, determined go-ahead activeness with determined go-ahead activeness with its live and pushing population. It is a manufacturing town, and though every branch of mechanical trade is prosperous and well sustained, yet the principal operations of business men is in tobacco. There are some sixteen or eighteen tobacco manufacturers in the town, all of which do a large business, and so popular are the various brands that it is with difficulty that the manufacturers are en-TRY OUR MILK.-A few more customers culty that the manufacturers are enabled to keep pace with their orders. We only had time to visit the factotories of Messrs. Blackwell & Co., the Morriss & Son, of which Col. E. A. Tomlinson, formerly principal of the Deaf, Dumb and Blind Institute of this city is proprietor, and that of Webb, Roulhac & Co. These manufacturers employ each a large force, work all the year round, and the shipments from these three alone amount to more money than all the produce shipped from the county. The establishment of Messrs. Blackwell & Co. is one of the largest in the whole South, and a better idea may be formed of the extent of their business when we state that the Revenue books in this city will show that their receipts for stamps from this firm,

> Durham has also two warehouses for the sale of leaf tobacco, one owned by Messrs. Reams & Walker, and one by Messrs. Parish & Lyon. Sales take place every day, and as for the character of the market we refer to the following average of sales at Messrs. Reams & Walker's, taken on the spot the day we were present:

over reaches two hundred thousand

D. W. Howard,	332	pounds.	\$30.00
	134	••	47.00
	56	••	75,00

The sales at Me	erse	. Parish	& L

on's are, we learn, equally as satisfactory, and the business in this line is largely on the increase. Weshall visit Durham again,

we shall write up its stores, newspaper, hotel, &c., &c. LOUISBURG ITEMS.—Our Louisburg

correspondent, under date of yesterday, gives us the following items: Last week I interviewed Franklin county generally and Louisburg particularly. Our farmers and freedmen are remarkably busy. A pretty good crop of oats and clover have been sown, and from my observation a larger corn crop will be planted than for several years past. Cotton will not be neglected. I do not think as large a quantity of fertilizers will be used as heretofore, as there has been more attention to composting with

cotton seed, &c. There is an unusual degree of good health in the county. As regards Louisburg, in addition to what I have before written you, I have to say that S. T. Wilder has attached a steam saw-mill to his plough factory just outside the corporate limits of the town on the Nashville road, and now that we can get lumber conveniently, there is a general spirit of improvement, repairing front yards, gardens, houses, &c.

Cotton particularly good, grades has improved, corn is tolerably plenty at \$5 to \$5.50. Fodder very scarce and high at \$2 to \$2.50, and hard to procure in consequence of the enormous quantity of horses and mules passing and stopping here for the past six months, which was unprecedented in numbers. Money is not quite so stringent, and I think our people both in the country and town are more hopeful and cheerful. The freedmen, particularly in the county, are working better, mostly cropping on shares and wages, viz:

\$8 to \$10 per month.

Last Wednesday the 25th of March, A. J. P. Harris, Esq , was married to Miss Nettle Clifton, M. J. Hunt officiating minister.

"MURDER WILL OUT."-It will te remembered that three or four years ago a most diabolical murder was committed in Harnett county, near the Cumberland line. Two old gentlemen, nearly eighty years of age, by the name of McLeod, were killed at their residence by rufflans in quest of money supposed to be in the possession of the old men, who had a day or two previous made a sale of some lands. The murder was at the time saddled upon the ku-klux, but was ascertained to have been committed by some members of the Lowery band. Lochlean, one of the supposed murderers, was apprehended a few days ago by the sheriff of Robeson, and has been lodged in Cumberland county jail. It is said that there is strong circumstantial evidence of the complicity of Loch-lear in the murder. The other rufflans are still at large.

POSITIVELY DECLINES.—We regret to learn that the Hon. K. P. Battle refuses, under any circumstances, to allow his name to be used as a candidate for re-election as city Com-missioner from the Middle Ward. We mean it not in a disparaging sense to the other gentlemen of the Board, when we say that Mr Battle is the ablest and most efficient memper of the Board and his counsel and advice in the next Board (for his reelection will be certain) will be miss ed, much to the detriment of the general welfare of the city. We, how-ever, that some good and suitable person will be elected in his stead.

THE MORGAN HOUSE.-We are pleased to learn from a gentleman who attended Johnston Court last week that the Morgan House, formerly the Harris Hotel, is now one of the best kept houses in this portion of the State, rendering it most pleasant to those who have occasion to visit Sm ithfield.

FAYETTEVILLE-A SLIGHT SKETCH OF ITS HISTORY AND ADVANTAGES. -Our travelling correspondent has recently visited this ancient and historic town, and has the following to

say of it:

"We had the pleasure of spending several days in this place during last week and taking the rounds of the town. Many localities of an interesting nature were pointed out to us. The foundation stones of the resi-dence of Flora McDonald, celebrated in Scottish history stand near one of the principal streets. This heroic lady came over to America in company with some of the Scottish adherents of Charles the Pretender after his defeat at Calladen in 1745, many of whom settled upon that portion of the Cape Fear, known as Cumberland county, and located the town of Fayetteville. The western portion of the county which is as wild as the moors of Scotland, is so slightly inhabited, that in some localities not more than one habitation is to be met with in every nine miles. The few residents are exclusively of Scotch descent; speak the Gallic language, and live much after the fashion of their Highland Ancestors, tending flocks of sheep which are supported by the pasturage character of the soil. Up to within the past two years the Rev. Mr. St. Clair of the Scottish Presbyterian faith, and father of Parson St. Clair of Legislative noto-riety, held regular Church service for these people in that language. The large city cemetery, which though a much neglected spot is one

of weird beauty, contains the remains of many of the early Scotch inhabitants. Here a marble monument inscribed as woman's tribute to the heroes in the dust bears testimony of the gallant deeds of those Confederates who rest within its hallowed precincts. In the northeastern part of the town situated in a verdant meadow, near the banks of a wandering brook, and overhung by trees projecting from the moss-covered ground above, is to be seen the locality once known as Cool Spring, where the lads and lassies of bygone days would sip the crystal waters; refresh the thirstof the Summer's day and whisper words of softest love. "Other facts relating to some of the natural beauties of the town might be mentioned, but we will speak of the changes which it has undergone in a business point of view and its prospects for the future.

Fayetteville was once an important sea port town, Wilmington being a mere way station, where the merchandise from foreign countries was received by agents and shipped to this place. All the counties west, as far as Buncombe and even portions of Virginia on the north and South Carolina on the south, traded by wagon lines with this port. Though not possessing the same aspect of commercial importance for many years before the breaking out of the war as when our railroad facilities were much more limited than at present, it was nevertheless one of the most thriving towns in the State. The numerous cotton factories in the immediate town and country contiguous thereto, added much to the prosperity of the place, and a limited amount of commerce was still carried

But the ruthless hand of war laid waste these monuments of industry; visited its paralyzing influence upon the energies of the people and ruined their resources. With the great ad-vantages which the town possesses for manufacturing purposes, being threaded by several water courses, as well as situated upon the Cape Fear, and the construction of the contemplated railroad from here to Florence, South Carolina, which will cross the Wilmington, Charlotte and Rutherford Railroad at Shoe Heel, thereby diverting the trade of Robeson, Anson and Richmond counties from Wilmington to this place, Fayetteville is destined to regain its former prosperity."

the seat of the volcanic disturbances was by mail yesterday morning. There has been no shock or rumbling on the mountain since our last re-port. A large number of explorers are reported as passing Salisbury and Charlotte to the volcanic regions. We learn that the State Geologist of Alabama arrived on the mountain via Rutherford Saturday morning. We await with much interest the report of the several scientific gentlemen that have and are now exploring the region for information in regard to this wonderful phenomenon, that is exciting so much interest throughout the country.

Having recently visited the vol-

THE BALD MOUNTAIN EXCITE-MENT.—Our latest information from

canic regions, we would say to trav-elers that the surest and best means of getting to the mountains, as well, as the most expeditions for a thorough and full exploration of both sides of the Sugar Loaf range, that Marion is the place to stop at. Mr. B. B. Flee-man, proprietor of the Flemming House, furnishes excellent horses and will also accommodate travelers with a map of the route, &c.

SMALL SHOT FOR SMALL GAME,-On yesterday morning while sauntering leisurely up the street an attache of the News was accosted by a young Republican politician, some little over 21 years of age, and who has once or twice been flattered by being called on to address small local meetings of still smaller local politicians. "Hello," was the eloquent and urbane salutation, "you have been hitting at us Republicans in your paper. I object to one thing about it!" "Well, what part do you object

"The hits are too feeble. Why don't you come it strong?"
"Well, sonny," was the reply, "because you couldn't stand it. It takes very small shot for very small game, you know." His mother will know the next time he is out unprotected.

HOME MANUFACTURY.-William Simpson, our enterprising Druggist, has begun the manufacture of Dental Fluid on a large scale, and is now prepared to furnish the wholesale or retail trade with this valuable article. Simpson is too well and favorably known to require any comment at our hands. Our people may be sat-isfied that his Dental Fluid is all he claims for it. We have used it and can highly recommend it as the best in use. Read his advertisement in this morning's News, and give him

[COMMUNICATED. This communication, we are requested to state, has been delayed by absence from the city of members of the Committee:

To the Citizens of Raleigh. The undersigned Committee, appointed at a meeting of the citizens of Raleigh, in September last, to co-operate with the School Committee of this Township in establishing a system of graded schools for white children, hereby surrender their trust for the following reasons:

1st. They were appointed at the suggestion of the School Committee by virtue of certain regulations adopted by the Board of Education. These have been repealed by the General Assembly, and the Committee are therefore functi officio.

2nd. As the General Assembly passed no law authorizing the sup-

port of Public schools by special city taxation, the Committee see no prospect of carrying out the wishes of the citizens at present. They are of the opinion that schools of a high order can not be established and regularly maintained by voluntary contributions, but must be under authority of law.

3rd. The Committee have been unable to take any action towards open-ing schools, as but a small part of the School Fund have been paid into the

county Treasury. 4th. The Committee respectfully tender their acknowledgments for the confidence reposed in them, and deeply regret their inability to secure an object in which the people are so greatly interested.

K. P. BATTLE, J. M. ATKINSON, A. W. MANGUM, W. WHITAKER, Committee.

In the first, third and fourth items concur. From the second I dissent. because I am sure that an efficient graded public school can be opened and continued here in spite of the defects of the present law.

J. H. MILLS. THE TAILORS' STRIKE.-Monday the journeymen tailors of this city, not satisfied with the rate of prices paid by the bosses, laid down the lap-board, cushioned their needles, donned their Sunday attire and promenaded the streets, determined to pursue this pleasant pastime until such measures were effected as would secure them a more lively compensation for their labor. Yesterday morning, an amicable and mutually agreeable arrangement was effected, and the strike, which was so quiet and orderly as not to create the slightest excitement, is now happily ended. Just here we would remark by way of parenthesis, that the fact alone of its quiet and orderly character reflects lasting credit upon the good character, gentlemanly deportment and good bearing of that representative class of the industrial branch of

our population. REMOVAL.-In consequence of the repairs now going on at the Yar-borough House, the law office of Col. Walter Clark, is removed to the room in the rear of his former office a cross the passage. This arrangement is however, temporary, and as soon as the repairs are completed, his office will be as usual immediately on Fayetteville street.

The rapidity with which fortunes are won and lost in this country is just now brought more strikingly. than usual into prominence, by the fact that two of the finest estates on the continent are for sale to satisfy creditors. The one is in New York State, and was owned by a broker, turiman and millionaire. Few persons were better known a year or two ago, or lavished money more freely. His country place, now in the mark-et, cost overthree million dollars, and the grounds, conservatories, stables and all other refinements of wealth and luxury an expensive taste could indulge, are unsurpassed. The whole place, it is said, will be now sold for five hundred thousand dollars. The other private residence is that of Ogontz, near Philadelphia, belonging to Jay Cooke. This cost one million five hundred thousand dollars. It will be sold as its owner left it—with all its beautiful furniture, its costly libraries, its picture gallery, its works of art, its conservatories. The house is a palace, rivaling in its bulk, at least, many of those of Eng-land, and is, probably, the most pre-tentious private residence in Ameri-

The students of Princeton College decline to accept Lenard W. Jerome's offer of a prize to be given to the "first gentleman" in each classs. The students claim that they are all gentlemen, and Mr. Jerome's proposition, if followed out, would place all but the winder of the price in false price. the winner of the prize in a false pc-

Paddy's description of a fiddle can-not be beat: "It was the shape of a turkey, and the size of a goose; he turned it over on its back and rubbed its belly with a shtick; and och! St. Patrick! how it did squale!"

EDITORIAL BREVITIES.

-"Indian thefts" on the border are much talked about. They have competent instructors in the art and are apt pupils. -The agitating question now is: Will the President veto the Expansion Bill? We hope the response will be in the nega-

> ative. -In the interest of peace, we sincerely hope that the report that Henri Rochefort has escaped from the penal colony of New Caledonia may turn out to be unfounded. - The Petersburg Daily News is getting into a good humor with Gov. Kemper, and compliments his recent message in regard to the finances of the State as an able State

paper. -Cremation vs Sepulture is now the cheerful topic in New York. Some of the people who discuss the matter are sure to be suited, for if they are buried they are

sure to burn. -It is said that there is a dead-lock in the Massachusetts Legislature. We deflantly ask where is the lock that Butler cannot plob, and has he not frequently robbed Banks.

-The Seaboard Arricultural and Mechanical Society organized, in Norfolk, on Saturday by the election of Commodore W. H. C. Lovitt, President, and Mr. G. W Camp, Secretary and Treasurer. -We notice that " bar meetings" are fr

quently held in other cities for obituary purposes, in order to eulogize some skillful fee-gatherer. We generally hold them here in moments of social exuberance. -That bone so long fought and snarled over, the Farragut prize money, is at last

about to be thrown to the yelping crew, but somewhat picked of its meat by the dir y hands through which it has passed. - According to the Norfolk Landmark, the Virginia Legislature don't fatigue itself over its work. It complains that the Sar-

geant-at-Arms of the House too frequently hastocompel the attendance of a quorum -There is one curiou feature in the war now going on in Spain-both sides are always victorious, and nobody gets licked. With the exception of the so-called King of Italy, the government at Madrid and the Carlist Junta are the greatest of auro-

pean liars. —There seems to be a general belief, in well informed circles, that the prosecution of General 0, 0. Howard will not be able to attach any criminal intent to him in the management of his bureau.—Exchange. Why, certainly! Who was assenough &

think he would be convicted? He is much too pious and su cessful a rogue for that. - The Richmond Enquirer, in commening upon Gov. Kemper's recent financia message, mildly tells that high functionary that in acraigning the miscalculations and errors of the authorities of Virginia in the past he demonstrates his want of comprehension of the present. We can stand it if Kemper can.

-The Raleigh News says P two-tailed calf is now the pride of the Grangers of Mecklenburg county. It is probable that two tails were never seen before on the

Behind, sir, always beh nd, if we hav read natural hi-tory to any purpose. This is somewhat ancient, but a moral is pointed and a tale adorned.

-The Virginia Legislature is discussing the petition of the Danville and Piedmont companies to be allowed to consolidate into a single company. The hitch in the matter seems to be that some of the Senators wish that the new consolidated charter should subject the railroad to taxation. This the railroad resists having been exempt for many years.

-Baltimore is now much excited over the bill recently introduced in the Maryland Legislature, to incorporate the Baltimore Abattoir Company. From what we can learn the bill provides that all cattle, &c., brought to that city for sale will have to be sold in the yards of the company. The provisions of the bill seem to us to granta most oppressive monopoly, and is justly opposed by the butchers of Baltimore and the citizens generally.

THE Mayor of Cincinnati has been unanimously requested by the Common Council of that city to prohibit the women from continuing their crusade against the saloon-keepers.

THE New York Herald of last Sat urday was a quintuple sheet, containing 42 columns of reading matter and 76 columns of advertising. This is truly an age of newspaper enterprise.

THE HERALD continues to importune the President, from the every corner of the paper, to veto the inflation measure of Congress. It cries aloud in its wrath over the success of the inflationists.

PARLIAMENTARY elections in Canada are still held in the old English fashion of viva voce, but Lord Dufferin, in his speech to the Canadian Parliament, foreshadows the introduction of the ballot.

MRS. MYRA CLARK GAINES' persistence in the pursuit of the property she claims in New Orleans grows warmer with each successive disappointment. Every resort to litigation having failed, she has brought her claims before Congress, where they are to be considered by the Committee on Private Land Claims.

THE administration organ at Washington, the National Republican, has the hardihood to deny that the horrible state of affairs which now exists in South Carolina is the result of negro predominance directed by corrupt carpet-baggers and a few native white recreants. In its very denial it admits the truth by way of accident. Mr. Chief Justice, Moses, his son and Judge MACKEY are mentioned as leading officials to prove the assertion that the native white element hold the majority of offices, etc., and really direct affairs. Of course they are leading officials and, we may add, leading corruptionists. They sold out to the Republican and carpet-bag party early in the game and are the leaders of that small portion of the native white element who joined, for the sake of plunder, the horde of North-

the close of the war.

THE N. Y. Herald, in every unfortunate difficulty that occurs between gentlemen in the South, seeks an opportunity to cast a slur upon the honor of Southern men. Evidently the writer of those articles does not possess that sense of honor which would prompt him to resent an insult, or which would cause him to defend the right when his own personal safety might be in any man-

ner jeopardized. THE contest for SUMNER'S Senatorial toga still continues in Massachusetts, with no positive evidence as yet who will be his successor. It is quite certain that neither DAWES or HOAR will ever command sufficient strength to be elected; CURTIS, the Democratic nominee, while receiving the full Democratic vote, can call to his assistance but few if any Republicans. And thus it would seem that some man whose strength has not yet been shown will come to the front. It is not altogether improbable that BANKS will be the "coming man" after all.

Doctors will sometimes differ. The Charlotte Democrat learns that Judge CLOUD, at Yadkin Court, held that the recent act of the General Assembly respecting minor criminal offences-assault and battery where no deadly weapons are used, petty larceny, etc.,-does not divest the Superior Court of original jurisdiction, but makes that of the Justices of the Peace concurrent with that of the Court. In pursuance of this holding the Grand Jury "worked up" a great many of these cases, and found bills. On the contrary, Judge MITCHELL held at Alexander Court that the Legislature had relieved the Court of all this class of cases, and the result was all the business was disposed of and he adjourned Court on Wednesday of the first week of the term.

Party Organization.

Within the past two or three weeks a number of our State exchanges have devoted space in their editorial columns to the necessity of prompt and thorough organization in our party. That this paper did not speak out upon the same matter arose from no lack of interest in the subject or of a knowledge of its utility and necessity. We cannot suppose the true men of the State so criminally blind or lukewarm to the every interest of our Commonwealth as to need an incitement to this patent duty. They know full well we have to fight, and that bitterly, an unscrupulous oe who comes into the field backed by an almost solid phalanx of eighty thousand voters who are, according to the signs of the time, fast developing themselves into an antagonistic race. They know that this rapacious horde are aided and abetted by the patronage of a government as corrupt as it is powerful. They know that a desultory and disorganized fight will seriously jeopardize the safety, if not defeat the only party, the Conservative-Democratic, to which North Carolina can look for deliverance from present evils or the avoidance of

We repeat that the masses of our party are too intelligent not to be aware of these truths, and too patriotic to need stimulating to the performance of so plain a duty. They know, we opine, the value of harmony and concert of action, without the old threadbare adage "in union there is strength" being constantly held up before their eyes. We say this because we believe that before many weeks roll over our heads our forces will be properly marshaled and aligned, from the extreme West to the East, and gallantly officered by the truest and most trustworthy sons of the State.

That private animosities and differences will be buried out of sight, and all energies bent to the good of the common cause, we are assured, for we enter the struggle to exalt no faction, but to uphold the interests dear to all good men and for the preservation of property, justice and hon-

or. All of these things being at stake, can an appeal be necessary to the white men of North Carolina not to neglect precautions, so eminently necessary at this critical moment, to secure a victory of right over wrong, of honesty over fraud, of virtue over corruption? We do not, and will not believe it until direful results render it a humiliating truth. Our banners, unsullied by the least taint of political or actual dishonesty, will be proudly unfurled and borne to a victory crowned with all the lasting benefits which a triumph of right over wrong brings in its train. Certain victory is within our grasp if we act with a common prudence and foresight. Having confidence in the intelligence, patriotism and prudence of our party friends, we rest assured that all necessary action in regard to needed organization and unity will be taken in due time, and we abide the issue with that implicit trust which a sense of the justice of

a cause ever inspires. The London Hornet gives the following as one of the effects of the late royal marriage: "Bookseller-Will you have these volumes bound in Russia or Morocco, sir?" Retired Coal-Dealer-'Well if I can't have 'em bound in London, send 'em to Russia. We must encourage that Czar now, you know.'"

Reported "missing" is the way a man is now chronicled when he is supposed to have misapplied funds and leaves the country for his coun-

try's good. Both Houses of the Illinois Legisern Goths and Vandals which poured down upon that unfortunate State at down upon that unfortunate State at tion. The vote was 112 to 6

The Case of Colonel Mayo, the State Treasury of Virginia.

We yesterday gave a statement of the recent arrest of the Treasurer of the State of Virginia upon the charge of misappropriating the State funds. We append the following additional facts connected with the matter:

On Saturday the Governor communicated with the General Assembly in regard to the matter, and the Senate adopted the following resolu-

tion: "Resolved, (the House of Delegates concurring), That a committee of three on the part of the Senate, and five on the part of the House, be appointed, to whom shall be referred the message received to-day from the Governor, to take into consideration what action is necessary to be taken in regard to the office of State Treasurer, with instructions to report as soon as practicable, and that the committee have leave to sit during the session of the two Houses."

The resolution was adopted by the House. The committee appointed under this resolution will await the action of the committee appointed to investigate the defalcation of the sinking fund before making a report The charge against Col. Mayo is says the Richmond correspondent of

the Petersburg Daily News: "Based upon evidence taken upon the trial of Coleman, wherein it was stated by two witnesses and confessed by Col. Mayo, that he had, without authority of the Board of Commissioners of the Sinking Fund, ex-changed "consol" bonds for "peelers," and for the difference had gotten currency amounting to about \$3,000. "Consols are the bonds issued under the original Funding Bill. The coupon bonds have coupons attached "receivable for taxes;" the registered "consols" are at any moment convertable into coupon bonds with coupons attached receivable for taxes. The "peelers" are the bonds issued under the amended funding bill, and the coupons attached are not receivable for taxes; the registered bonds are exchangeable, but only for coupon bonds only of this latter character. Now t was proved that Colonel Mayo had, on several occasions, carried "consols" to brokers and exchanged them for "peelers" and was paid the three or four per cent. difference in cash, which he was unable to account for. General Rogers and Mr. Taylor, the other members of the Board,

self and made admissions that were certainly very damaging to himself." The Sucz Canal appears to be doing a good business. During the month of January 111 vessels passed through, paying tolls to the amount of \$438,-

wholly disclaimed any knowledge of

these transactions. Col. Mayo always

asserted that he had applied the cash

thus obtained to the purchase of ad-

ditional "peelers," but in his testi-mony before the Hustings Court, he

could give no positive evidence that

he had done so; it was then thought

that he was not in his right mind, for

he more than once contradicted him-

Michigan ought to be happy. A resolution has been offered in Senate that in view of the large balance in the State treasury no tax be levied for 1874.

NORPOLK, NINGINIAO

The Cape Fear is subsiding.

Charlotte had 16 police arrests last

Onslow Superior Court begins on the 7th inst. Burglaries are numerous in Meck-

lenburg county. Granges are still being organized in Mecklenburg county. Pic-nics are now talked about in various sections of the State.

Rockingham, Richmond county, is having temperance lectures. The voters of Pamlico have chosen

Vandemere as their county seat. The tax receipts of Wilmington last week amounted to \$2,144.65. Little children are occasionally run

over by busy Wilmington drays. Charlotte is fearful of being infested by a gang of Northern burglars. The Carolina Central Railway will be completed to Shelby at an early

An extensive sash and blind factory is soon to be established in Golds-

The revenue officials are after the ellicit distillers of Transylvania county. The peach crop in the Goldsboro

section has been seriously damaged by frost. The ex-Queen of Scuffletown, Rho-

dy Lowery, is now the happy Mrs. Chavers. Wilmington dogs have a propensity for chewing up young and tender

children. Mr. Henry Martendale, an old citzen of New Hanover county, died on

Thursday last. On Friday a young man, while hunting in McDowell county, fired at a rabbit and kill a negro boy in-

Mr. H. N. Latham, express agent at Wilmington, was thrown from a buggy on Saturday and his collar bone broken.

Gov. Vance has postponed indefi-nitely his lecture in Wilmington on account of the number of his engagements elsewhere. The two young girls who recently ranaway from their father's house, at

Mount Olive, Wayne county, have not yet been heard from. Rev. Frank Sanford, of Rocking-

ham, has revived his paper, the Pec Dee Courier, and it will hereafter be published regularly every week. The New Hanover County Con servative Convention meet in Wilmington on or about the 22nd o

April. The official call will be issued in a few days. There is to be a grand Republican rally at Lillington, New Hanover county, on the 4th inst. The time

could have been more appropriately fixed for All Fool's Day. The Asheville papers still waste space on that very ridiculous discussion which has been going on for the ord knows how many months, be-

ween several mighty theologians in hat section. Edward Peschaa, the German Vice Consul at Wilmington, is anxious to tell all he knows about the exposition to come off at Bremen on the 13th of June. Parties in pursuit of information should apply.

The postoffice at Lilesville, Anson county, has been discontinued. It is said that Special Agent Long done this in a fit of virtuous indignation when finding out that liquor was sold in the postoffice building.

The dividend of the North Carolina Railroad Company will be paid to the stockholders in the Charlotte section by the First National Bank of that city-3 per cent. on the 1st inst. and 3 per cent. on Oct. 1st. Says the Spirit of the South, (Rockingham, Richmond county,) of the

"We have it from good (?) authority that a gentleman residing in the lower end of Anson county, while engaged clearing, a few days ago, stove his axe into a black jack tree and was surprised at its striking some hard substance in the hollow, which proved to be a chunk of gold weighing nine pounds. How the treasure came there is, of course, unknown but it is supposed that it was placed in the tree, perhaps in time of the old revolutionary war, by some one for safe keeping, the tree growing over it, and the one who thus sought to conceal his gold either forgetting where he put it or else dying without revealing its whereabouts."

Gen. Fitzhugh Lee, through Senator Johnston, has petitioned the U. S. Senate for the removal of his political disabilities. His petition states that he graduated from West Point in 1856, and served on the frontiers of Texas. During this service he was twice published by Gen. Scottin "general orders" for gallantry in battle, and was severely wounded in an encounter with the Indians. He further says: "I resigned my commission in the United States army in 1861, being at the time on duty as an instructor of cavalry at West Point. My father, S. S. Lee, of the navy, and my uncle, R. E. Lee of the ar my, had previously resigned. My resignation was duly accepted by the War Department, before I accepted other service, which placed me upon the basis of any other citizen of Virginia." The petition was referred to committee for examination.

Sir Garnet Wolseley will take his place in the list of England's second-class heroes-there are no living Nelsons or Wellingtons. He served in the Crimea, in the Sepoy rebellion, and commanded the expedition to put down Riel's rebellion in Manitoba, and has acquired reputation by articles on military subjects.

"The President of Spain," says an exchange, "is to receive a salary of \$100,000 per annum." Well, keep that to yourself, please. It is calculated to make our President think he is running the concern for almost

Senator Sumner has gone where proof-readers are not known. His friends congratulate themselves that he did not see the issue of the Cave Echo, which punctuated his last words, "Takecare of my Civil Rights, Bill."—Courier-Journal.

The land owners of Texas are taking measures to crush out the cattle owners who own little or no land. Immense pastures are being fenced in, and there will soon be no open prairie for cattle.

Mark Twain is building a new house in Hartford, Ct., and purposes taking up his permanent residence in that city.

WM. R. GRIFFITH, of Baltimore, General Agent.

Petersburg, Va., December 17th, 1873. To the Farmers and Guano Dealers of North Carolina and Virginia: Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all scluble in the soil. Its nitrogen, from nitric acid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the voiatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

WM. R. GRIFFITH, General Agent.

THE COMPANY GUARANTEES THAT EVERY CARGO WILL BE ANALYZED BEFORE IT IS OFFERED FOR SALE.

LETTER FROM PROF, WM. C. KERR, STATE GEOLOGIST OF NORTH CAROLINA Raleigh, N. C., January 7th, 1874. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Peters-

burg, Virginia:

Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown me is Chemical Minerologist to the Geological Survey, and has no superior as a chemist. I have no hesitation in endorsing any analysis from his laboratory. And I think the analysis justifies his statement that the substance examined by him is a VALUABLE MANURE. MANURE.
From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree proportioned to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

Yours truly, W. C. KERR, State Geologist.

ANALYSES.

The following analyses of different cargoes and samples by two of the leading chemists of the country, are given for the guidance of the public:
LETTER OF PROF. P. B. WILSON, LATE ASSISTANT OF BARON J. VON LIEBIG. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street

Baitimore, December 1st, 1873.

MAJ. N. M. TANNOR, President Guanahani Guano Company, Petersburg, Va.:

Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimilable by plants. It contains potential ammonia and nitric acid, having a combined Nitrogen value equal to from 2 to 3 per cent. of ammonia, with the alkalies Potash and Soda, and valuable proportions of Sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tiliage, must, in my opinion, give as good results as any guano offered to the farmer.

Being of animal origin, the organtic matter has undergone partial decomposition, and it accessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded large y of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and brought down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and passess such physical properties as to render it at all times and ut der all circumstances as in mediately available plant food.

The late samples you sent me for analysis, from the deposit which you inform me you Baltimore, December 1st, 1873.

The late samples you sent me f ranalysis, from the deposit which you inform me you intend to ship from, show a decrease in the phosphatic value, but a large increase in its nitroges compounds. I think, however, from previous observations of cargoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improved in the saline compounds, (phosphates, allites and magnesia.

Respectfully, &c.,

P. B. WILSON, Analytical and Consulting Chemist. Baltimore, December 1st, 1873.

P. B. WILSON, Analyt. and Consulting Chem. Respectfully, etc., UNIVERSITY OF PENNSYLVANIA, WEST PHILADELPHIA, 19th, 1873.

Maj. N M. Taannor, Petersburg, Va.,

DEAR SIR: In compliance with your request, I have analyzed sample of "Guanahani Guano," and have made additional exam. nation of an average sample from a lot of 306 tons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of lime with Carbouic, Phosphoric and Nitric acids, It contains a considerable quantity of water (about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the mimute bones, which were discovered in the same, indicate that it is the result of the decay of bats, mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 2½ per cent. of ammonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent. was found. All the nitrogen present would be equivalent to about 3½ per cent. of ammonia. The phosphoric acid in the Guano about 12½ per cent., equal to 27 3 per cent. of bone pho phate. A considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly solt ble in water, renders the Guano as quick in its action, as a corresponding quantity of superphosphate would do. The small per centage of pot sh, which was found in the analysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

Yours truly,

F. A. GENTH.

University of Pennsylvania,
West Philadelphia, Nov. 28th, 1873.

To N. M. Annor, President Cuanahani Guano Company, Petersburg, Va.
Dear Sir: The sample of Guano analised in compliance with your favor of 21st and 25th, for phosphorie, nitric and sulphuric acids, and ammonia, potash, soda, lime and magnesia, contains as follows:
Phosphorie Acid, sulphuric Acid,... soda,.....

CERTIFICATES:

Ammonia,.....
Nitric Acid, (producing nitrogen equal to Ammonia,)..........

WHOLE AMOUNT OF AMNONIA

STATE OF MARYLAND, TREASURY DEPARTMENT,
Comptroller's Office, Annapolis, September 20th, 1873.

E. T. Wroth, Esq., Baltimore, Md.;
Dear Sir: Yours in regard to the Grano was received some time ago, and as I know very little, personally, about the effect it had, I laid it aside until I could go home and in quire. I learn that it did improve the wheat to some extent, I did not apply any other Guano. I applied
Bone Dust, and I learn your Guano was of about the same efficacy in fertilizing, so far as the appearances of the crop indicated.
Please send me a bill for Guano, and I will send you a check.
I sm, very truly, in haste, yours, &c.,
LEVIN WOOLFORD.

[Letter from Ex-Governor Smith.] Warrenton, Va., August 4th, 1873. Mr. E. A. DUNLAP,
I par Sir: The extraor-linary character of the season (a rain almost every day,) outs it
wholly out of my power te form an estimate of your Guano. The crops of corn and ratabagas to which it applied, look ve y fine.
Yours, truly.

WM. SMITH.

Bethel Academy, Fauquier County, Va., July 21th, 1873. Mr. E. A. DUNLAP,
Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it.
Think it is as good as the high priced Guanos. I have a good paying crop of wheat, and
the best stand of grass I ever had, and this is the opinion of those who have seen both,
notwithstanding the unfavorable winter and early spring. I shall use it again this fall.
Yours,
[This crop of wheat, 28 bushels to the acre, was noticed in the Warrenton and Alexandria papers, as the finest crop in Mr. Smith's county.!

Warrenton, Va., July 17th, 1873,
warrenton it cause to any guano I ever used. I used your Guano on wheat last year, and consider it equal to any guano I ever used.

LEWIS SHUMATE.

GUANAHANI GUANO! GUANAHANI GUANO! Bethel Academ, Fauquier County, Va., November 12, 1873, E. A. DUNL'P. Esq.,

Dear Sir: If I could have made collections, I certainly would have used two tons o the Guano you sent me this fall.

I consider it better for wheat than any other Guano that has been used in this county

Respectfully yours, M. C. BLACKWELL. Mr. E. A. DUNLAP,

Dear Sir: The Guano purchased from , ou. was used upon coin by the side of one of the best ammoniated soluble phosphates in the market. The quality of the land was the same as was the quantity of guano and phosphate used. The corn where the Guano was used appeared to start sooner, and in the fail was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, &c.,

Late firm of Neale, Harris & Co., Commission Merchants. Baltimore, December, 1873.

We, the undersigned, have sold your Guano for two seasons. Those that have purchased are buying again, and are pleased with the results.

L. KELLUM & CO., 119 Hillen street, Baltimore.

Cheston, Near Queenstown, Md., August 18th, 1873.

E. T. Wroth, Esq., Baltimore, Md.,

Dear Sir: I have your favor of 4th inst., making inquiries as to the results from application of the Guano which you sent me last fail. I applied it at the rate of 170 pounds per acre—the same quantity as of the other fertilizers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field wasgenerally of fine quantity, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point,) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points, at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I therefore cannot pronounce positively in its favor, over others; but, from its general appearance, judge it quite equal to other standard fertilizers of established reputation.

Very respectfully yours,

WM. HENRY DECOURCY.

Baltimore, November 17th, 1873. E. A. DUNLAP, Esq...

To e Guano I had of you last Spring, I used on corn. It produced a first rate crop. 1 used about 200 lbs. per acre. Of E. D. Hoopes & Co., 226, 228 & 230, Penn. Averue, Baltimore, Md. Dealers in Grain Country Produce, Guanos, &c.

Somerset County, Md., Westover, August 8th, 1873. E. T. Whoth, Esq., Baltimore, Md.,

Dear Sir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeded it by the side of ** ** * 's Raw Bone Super-Phosphate, at the rate of 150 ibs. to the acre, of each. Whilst growing, I, nor any to whom I showed it, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre. I consider it equally as good as ** * * S, in every respect. Please inform me the price, as I intend using some on wheat this fall.

Very respectfully yours,

Mount Airy, Carroll County, Md., November 13th, 1873. Moent Airy, Carroll County, Md., November 13th, 1873.

WM. R. Griffith, Esq., General Agent,
In reply to yours of the 12th, will say, the farmers can say but little, as yet, in regard to Guanahani Guano. But Maj. A. G. Davis, who used one bag, by the side of several other fertilizers, says, so far, the Guanahani looks better than any of the others. All parties say, so far, they can see no difference in their grain wherever it is up sufficient to judge. By the Spring, I can give you a more satisfactory report. Hoping to have the pleasure of a visit from you, soon,

I am. truly yours. I am, truly yours,

W. H. B. DORSEY. P. S.-I have commenced making a stir for the Spring trade.

San Marino, Dinwiddie Co., Va., November 15th, 1873.

W. R. Griffith, Esq.,

Dear Sir: Yours of the 12th inst., was re elved on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Gua. o, from Messrs, towlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs. per acre. The wheat was seeded from the 10th to the 17th of October. I was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with *****Phosphate. The two acres strip was in tobacco, heavily manured with stable manure and *****

Tobacco Fertilizer. I also added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sown upon thus three fifths strip.) The season has been favorable, and the young wheat is looking very well; and that upon the narrow strip of poor land, equally as good as upon the heavily manured tobacco land. I am satisfied that the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, by will carefully note the result and let you hear from me again.

Yours respectfully.

THOS. F. RIVES San Marino, Dinwiddie Co., Va., November 15th, 1873.

THOS, SUDLER.

Kingston, Dinwiddie Co., Va. November 26th, 1873. Messrs, ROWLETT & TANNOR, Messrs. Rowlett & Tannor,
Dear Sirs: In reply to your inquiries in regard to the Guanahani Guane, which I purchased last summer. I can only say that I applied it on my wheat crop, sowing it breadcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano. Where I used it, the wheat looks bette: than any I have seen, and my neighbors who have seen it, consider it so. I applied it the first of October, and it snows very plainty over the wheat where there was nothing used. Very respectfully,

JOHN J. MITCHELL. [Note.-Mr. Mitchell has since ordered 10 tons for his Spring crops]

Millstone Landing, Md., December 1st, 1873. Mr. E. A. DUNLAP,
Dear Sir: I am just in receipt of your letter, but regret that I did not receive it sooner.
I used your Guano, side by side with * * * * * * * Ammoniated Super-Phosphate, and
could perceive a difference, only in growth of the straw. The straw from * * * * * * *
rather the largest. The grass from it was equally as good, and I do not hesitate in rec
ommending it to farmers as a reliable for tilizer.

Very respectfully,

ELKANAL WICE Mr. E. A. DUNLAP,

Dinwiddle County, Va., November 21st, 1873. Messrs, McLumaine & Co., Petersburg, Va.,
Gentlemen: I used the Guanahani Guano, purchased of you, on wheat at the rate of
300 lbs. per acre, on corn land. The wheat is looking well. I think it will prove a good Respectfully, A. M. ORGAIN.

Sussex County, Va., December 12th, 1873. Messis, Rowlett & Tannor, Petersburg, Va.,
Dear Sirs: I used on my wheat, sowed about the lst of October, a half ton of Guannhani Guano, and so far I am very much pleased with its action. Where I used the Guanahani the wheat is looking remarkably well—a great deal better than the wheat own on a pea fallow.

Very respectfully,

J. N. WINFIELD. Prince George County, Va., December 16th, 1873. Messrs, Bisnop & Beanch,
Sirs: You ask memy opinion of the Guanahani Guano I puechased of you last fall,
I used the suano on my wheat, but owing to the unfavorable fail for the growth of
wheat, it would be impossible for any manure to show at strength fully. Powever, I
think the guan on good ertilizer, from the fact, that the wheat looks as well as it does
where a well known fertilizer was used that cost nearly double the money.

Respectfully, A. G. JORDAN. Petersburg, Va., December 18th, 1873.

WM. R. Griffieh, General Agent of the Guanahani Guano Company,
Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.

You truly,

SAMUEL H. JONES,
Prince George County, Va.

Broad Run Station, Fauquier County, Va., December 4th, 1873. Mr. E. A. DUNLAP.

Dear Sir: I left one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn care ully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gailon; from the row without gnano I got a half bushel and not quite a quart; making

iuily double where I used guano. The growth of stalk was not proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The land I tried it on was quite thin. Messrs. Rowlett & Tanner.

Poplar Mount, Greensville County, Va., December 17th, 1873. Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani

Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (200 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a heaithy, vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the super-phosphates.

The winter cats we e sown the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former days, when for a noderate outlay of money, the farmer purchased the pure Chincha Island. (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacco.

I am, very truly yours,

GEORGE W. FIELE. GEORGE W. FIELL.

The Company recommend an application of from 200 to 250 pounds per

acre, but not over the larger amount.

As it will be impossible to bring but few thousand tons to this country in time for the spring irade, orders must be sent at an early day to secure it.

For further information apply at the office of the

OLD RYE KENTUCKY BOW-en whiskey.

New York, March 31.-It is un derstood that the government will try Charles Calendar next criminal term on an indictment charging him with accepting a bribe of seventysix thousand dollars from the Ocean National Bank of this city to influence his official action as Bank Examiner.

The war between the Great Railway Trunk Lines on the subject of carrying emigrants, is assuming an interesting shape and is likely to prove beneficial to emigrants as it will result in a great reduction of rates as long as it lasts.

The decision of Judge Ben: e lict i the Senborn case, expected to be delivered to-day, is upon the point made by the United States District Attorney that Sanborn illegally took money which was collected by Hawley and Vaudewaken, both of whom were in the employ of the government, and such collections should have been turned into the Treasury; also that the contract between Sanborn and the Secretary of the Treasury specifically holds that he, Sanborn, could not recover any money unless he (Sanborn) personally collected it. The District Attorney puts in evidence, the preliminary letter of the Secretary of the Treasury interpreting the contract that Sanborn must make his collections himself.

A Havana letter of the 25th says, that incendiary fires among cane fields are raging all over the Island and the destruction of property is fearful. The Madrid plantation in Remedeas, consisting of about three hundred acres of sugar-cane, was destroyed on the 18th. In the jurisdiction of Cienfugor, eighteen plan-tations were burned. On the Eastman plantation the owner, his son and three others were killed and the place burned by negroes formerly slaves of the estate. Every effort has been made to capture the perpetrators who are said to be insurgents, but thus far without success.

FOREIGN NEWS.

Fugiand, France and Spain. London, March 31st.-There have been heavy losses on both sides in the battles before Bilboa. Sontoander is crowded with wounded from the Republican ranks. The Carlist besieging force has partially suspended the bombardment of Bilboa, in order to turn their guns against Serrano's army.

The Daily Telegraph Australian correspondent says Henri Rochfort and his companions escaped from New Caledonia in a small open boat. They had been three days at sea when they were picked up by a British sailing vessel and brought to an Australian port. Rochefort has telegraphed to Paris for funds. He intends to visit the United States and lecture in New York and other American cities before he returns to Europe, when he will probably take up his residence in Brussels.

The morning papers attribute depression in business in London to the extensive strikes of coal and iron miners in Staffordshire and in other parts of England.

The Messagerries Martimes steamship Nil was lost on her last voyage from Hong Kong to Yokohoma, and all her passengers were drowned. Among them were the Japanese Commissioners to the Vienna Exhi-Paris, March 30 .- Gen. Chaucey

has been authorized to declare Algeria in a state of siege, in order to restrain the violent abuse of Radical journals in the Colony.

MADRID, March 30.—The canonading at Abantes continued Saturday

and Sunday. The condition of Gen. Lamar is improving. MADRID, March 31.-Marshal Se-

rano has issued an order prohibiting the transmission from Santandelo and places in the vicinity of that town of private telegraphic dispatches. A heavy fire is kept up by the artillery upon the Carlist positions before Bilbao, but the other troops are resting. The Abatement of the Famine.

CALCUTTA, March 31.—Reports from the distric s affected by famine show great improvement in the situation. The measures taken by the government to relieve the distress of the people, have proved very effective. There are now no actual cases of starvation outside of Tirhost, and in that district there are but few. Miscellaneous Items.

PHILADELPHIA, March 31.—The carpet weavers held a meeting and determined to adhere to the strike. In Kensington alone 112 shops are

LOUISVILLE, March 31.—Ticket No. 964 drew \$18.750. Congressional

WASHINGTON, D. C., March 31.-SEXATE-Fenton presented the memorial of the recent Convention of Tax-Payers' of South Carolina, asking relief against misrule and corruption. Referred to the Judiciary Com-

MIDNIGHT DISPATCHES

The Louisville Lottery-Who has the Lucky Numbers. LOUISVILLE, March 31.-In the drawing to-day of the Louisville Lot-tery ticket No. 3,571, drew \$7,500 and

21,101 drew \$750,000. LATER.—The following numbers have been drawn since last report: Numbers 41,693, 12,211, 45,595, 49,-585. which drew \$7,500, each number, 58,171 drew 13,125. The capital prize \$187,500 was drawn by ticket 55,104. It is not known who holds the ticket. Tickets No. 1,950 drew \$7,500, No. 32,332 drew \$37,500.

A Man Shot While Drunk. CINCINNATI, OHIO, March 31.— The notorious Tom McGehan w.s.

shot in the head in Hamilton, Ohio, last night, it is supposed, by John Koehler. Both were drunk at the time. McGehan's wound is not fatal. It will be remembered that C. L. Vallandingham lost his life while acting as McGehan's lawyer in his trial for murder.

Weather Probabilities. WASHINGTON, March 31.-For the South Atlantic States, southwester-

ly winds, low barometer, falling temperature and cloudy weather with occasional rain. Sanborn Acquitted. NEW YORK, March 31.-Sanborn and his partners have been acquitted.

The indictment is defective so as to exclude certain evidence. O. L. STRONACH & PLO

FROM THE NATIONAL CAPI-

A Peremptory Demand for Sanborn by the Ways and Means Committee-Nominations-More of the Never-Ending Mrs. Gain's Land Claims -Congressional Proceedings.

WASHINGTON, March 31.-A peremptory summons from the Committee on Ways and Means has been sent for Sanborn. A nice question arises whether the Ways and Means Committee will wait on a felony trial now progressing at New York to intermit.

NOMINATION.-Alexander N. Wilson, Appraiser of Merchandize, Sa-

Foote and Paschal have agreed before the Private Land Claims Committee of the House in chehalf of Mrs. Gaines in certain land claims in Louisiana. Mr. Lawton, S. C., addressed the

Committee on Railways and Canals in behalf of a narrow guage railway from Port Royal to some point on the Missouri. The Company simply ask a charter.

SENATE-By a vote of 29 yeas to 27 nays the Senate struck out the fourth section of the finance bill as reported by the Committee. This section provided for the gradual retirement of legal tenders as additional national bank currency, and should be issued as such, the retirement to be in ratio of seventy per cent of additional national bank circulation until the volume of legal tenders should be reduced to three hundred million dollars.

Several amendments offered by friends of specie resumption were reiected.

House-Dawes presented a memorial from the South Carolina Tax-Pavers' Convention reciting the leading facts of misrule and oppression under which the people of that State are suffering and asking some relief at the hands of Congress.

Dawes said the petition bore the signatures of a large number of prominent and influential men of that State.

Randall asked what Congress could do about this matter. He said he had always opposed any interference by Congress in the affairs of the States. Dawes said he did not know exactly what could be done about it, but he thought it just and proper to re-

ceive the petition. After further discussion it was referred to the Committe of the Judic-

On motion of Stone, the bill for the improvement of the mouth of the Mississippi rives, was made the special order for April the 21st at half past 1 o'clock, the previous question to be called at 4 o'clock p. m. on that

The Louisville and Portland canal bill passed. It provides for the Federal government taking charge of the canal as soon as Kentucky relinquishes the jurisdiction. She assumes bonds, and debts and

reduces the rates of tolls. The South Carolina memorial being now before Congress, the delegation having it in charge hope to have a speedy hearing before the Judiciary Committees of both house to which

The Escape of Henri Rochefort Con-

it was referred.

LONDON, March 31.-A dispatch from Melbourne says Henri Rochefort and his companions escaped from New Caledonia by stowing themselves away in a vessel bound for New Castle, they have arrived at Sydney, and will proceed to Europe "Gone Where the Woodbine Twi-

neth." NEW YORK, March 31.—Mecella K. Mebeeler, a female physician, convicted in Jersey City of causing the death of Ida W. Vail by malpractise, was to-day sentenced to ten years in the State prison. A motion for a new trial was refused.

A Romanist Come to Grief. BERLIN, March 31.—The Roman Catholic Archbishop of Colonge was arrested to-day for violating celesiastical laws. The arrest was made without any demonstration arrested to-day for violating eclesiaswithout any demonstration.

sassachusetts tenatorial Election. In the Legislature to-day the vote for United States Senator stood as follows: Dawes, 95; Hoar, 78; Curtis, 76; Adams, 15; Banks, 6; no elections.
